# company introduction

Bright World Guardianships Ltd and our sister company, Bright World Education Ltd, were founded in 2000. Our role is to help overseas students to find the right place at a British school, or college and then to care for them while they are here as their UK-based guardian.

## Summer guardianship

If you are sending your son or daughter to a UK summer school, then you may be asked by the school and the authorities to provide the name of a UK based guardian who can take on parental responsibility on your behalf, should it be needed, and if you are not living in the UK. Parents who do not have a friend or family member who live in the UK often turn to the services of a guardianship organisation such as Bright World Guardianships. Any student who is under the age of 18 is considered to be a child in terms of UK law.

If students are joining a summer school prior to a main boarding school, there is often a gap in the dates between the two. In this case, Bright World will be able to arrange a host family and travel arrangements during this time.

Many students who join the Bright World Summer Guardianship Programme also then continue with us during the school year, as they move onto full time education in the UK. In this case, they transfer to our full child guardianship programme once they have completed their summer school course.

## AEGIS accreditation

Unlike many other guardianship organisations we are fully accredited by AEGIS (The Association for the Education and Guardianship of International Students). This means our practices and processes have been thoroughly inspected and audited by this important organisation and we can therefore guarantee that we will act in your child's best interest at all times.
